§ 5. ADDRESS BY THE PRESIDENT

President Per-Anders Blind shortly addressed the plenum. In summary:

Since it was many new members attending the AGM the President went through the CONIFA Vision, our mission, how to define us and how the organization operates.

The President also took the opportunity to advise the members to work in their development, by using the Marketing Funnel: Awareness – Interest – Desire – Action. Each step needs its own strategy and action plan. This was followed by a "look into the crystal ball" and the future steps of CONIFA to become stronger and support the members in an even better way.

This was the third step on a long journey to come and while the year had mostly ups and some downs it clearly showed that together we can bring football outside FIFA to a new level. Only thanks to the tireless efforts and work of all members and a global team spirit, an international movement has started, which is followed by more and more people and new teams around the world.

Today, we will discuss the ups and downs of the year 2016 and, even more important, we will decide how to move on from this point. We are looking forward to get further inspired by all of you today to build the best sport organization, which is truly working for its members and does not leave any people behind.

CONIFA is very proud and honored to welcome you all to the 4th Annual General Meeting!
