

Internal Regulations

Commitment to Gender Equality

As an organisation, CONIFA is committed to the principles of gender equality.

As such, CONIFA will adhere to the following principles:

1. A Women's World Football Cup is of equal importance to a Men's World Football Cup. CONIFA thus commits itself to organise Women's World Football Cups in all uneven years from 2019 onwards, with no exception.
2. CONIFA will actively promote female representation on its board and will encourage women around the world to apply for posts on the ExCo level.
3. CONIFA will distribute its resources equally between men's and women's football, spending not less than 40% of all development assistance funds on each gender, women and men.
4. CONIFA commits to make all possible efforts to use male and female referees in all tournaments going forwards.
5. CONIFA actively supports equal representation of genders on the bench and within Football Association roles and commits to assisting its members in including women in coaching and executive positions.
