Proposal of amendments in the Internal Regulation for membership

I hereby propose the below addition be made to the CONIFA Membership Eligibility as 1.11:

The entity represented by the Football Association is a territory or people defined by an ethnic, regional or historical cultural identity and which has formed through ethnical, historical and/or regional specializations. This category is for the FAs representing people who may not qualify under the first 10 criteria but their cultural identity is widely known and acknowledged by the AGM.

I also propose a change to the wording of Eligibility 1.1: Proposed change is in brackets.

A Football Association may be eligible to apply for Association Membership of CONIFA if it, or another Association representing the same entity, is not a [full] member of FIFA and satisfies one or more of the following criteria:
